EDUCATION

Saint Louis University

B.A. in Computer Science

B.A. in Mathematics, Statistics Concentration

Cumulative GPA: 3.62

Saint Louis, MO

Aug 2021 – May 2026

- Dean's List: Spring 2022, Fall 2023, Fall 2025
- Relevant Coursework: Software Engineering, Data Structures, Object-Oriented Software Design, Computer Organization Systems, Algorithms, Distributed Computing, Discrete Mathematics
- Member of the Math and Computer Science Club

SKILLS

Programming & Query Languages: SQL, Python, C, C++, Java

Data Analysis: Data Cleaning, Data Validation, Data Manipulation (Python, SQL), Statistical Analysis (coursework)

Tools & Technologies: GitHub, Git, Linux, Jupyter Notebook, Docker, CI/CD

Data Visualization: Power BI, Matplotlib,

Data Analysis Libraries: Pandas, NumPy

Business Tools: Microsoft Excel

Concepts: Client-Server Architecture, Networking, APIs, Data Documentation, Data Quality Validation

PROJECTS

Data Science Salary Analysis (SQL + Python)

- Analyzed 600+ data science job records using SQL and Python (Pandas, Matplotlib) to identify key salary drivers such as experience level, job title, company size, and remote work.
- Wrote SQL queries to aggregate and filter salary data across multiple dimensions for structured comparison of compensation trends.
- Created visualizations to explore salary distributions and highlight differences across experience levels and job categories.

Disability Inclusion & Attitudes in Higher Education (SQL + Python)

- Conducted survey-based data analysis using SQL and Python to explore student attitudes toward disability inclusion in higher education settings.
- Processed and structured Likert-scale survey responses to measure knowledge, awareness, and inclusion-related attitudes across demographic groups.
- Analyzed relationships between disability awareness, personal contact, and inclusion attitudes using grouped SQL queries and statistical summaries.
- Built visualizations to compare inclusion and awareness scores across student demographics and experience levels, identifying meaningful patterns in responses.

EXPERIENCE

Mathnasium

Math Tutor

Saint Louis, MO

Sep 2025 – Present

- Tutored elementary through high school students in mathematics, ranging from basic arithmetic to calculus.
- Improved students' problem-solving skills by breaking down complex concepts into manageable steps.

Saint Louis University

Student Researcher & Assistant

Saint Louis, MO

Aug 2022 – Present

- Completed specific research training and earned a CITI Certification.
- Collaborated with the program research assistant.
- Assisted in updating the International Faculty and Staff Association (IFSA) webpage.
- Teaching Assistant for Cura Personalis course

VOLUNTEERING

Culturally Appropriate Transformation for Culture of Health (CATCH) Program

Student Health Coach

Saint Louis, MO

Jan 2025 – May 2025

- Assisted participants in developing healthier lifestyle habits through personalized coaching.
- Conducted pre/post-assessments and health coaching sessions during the eight-week program.
